

T3 WANDLITE STANDARDS

T3 WANDLITE DATA SHEETS - STANDARDS AND ARRANGEMENTS

T3 Wandlite comes in standardized sizes to allow for stock, modulation and ease of use. Please see illustration below indicating component codes and dimensions. (For more information on configurations and layout options please review the associated data sheets.)

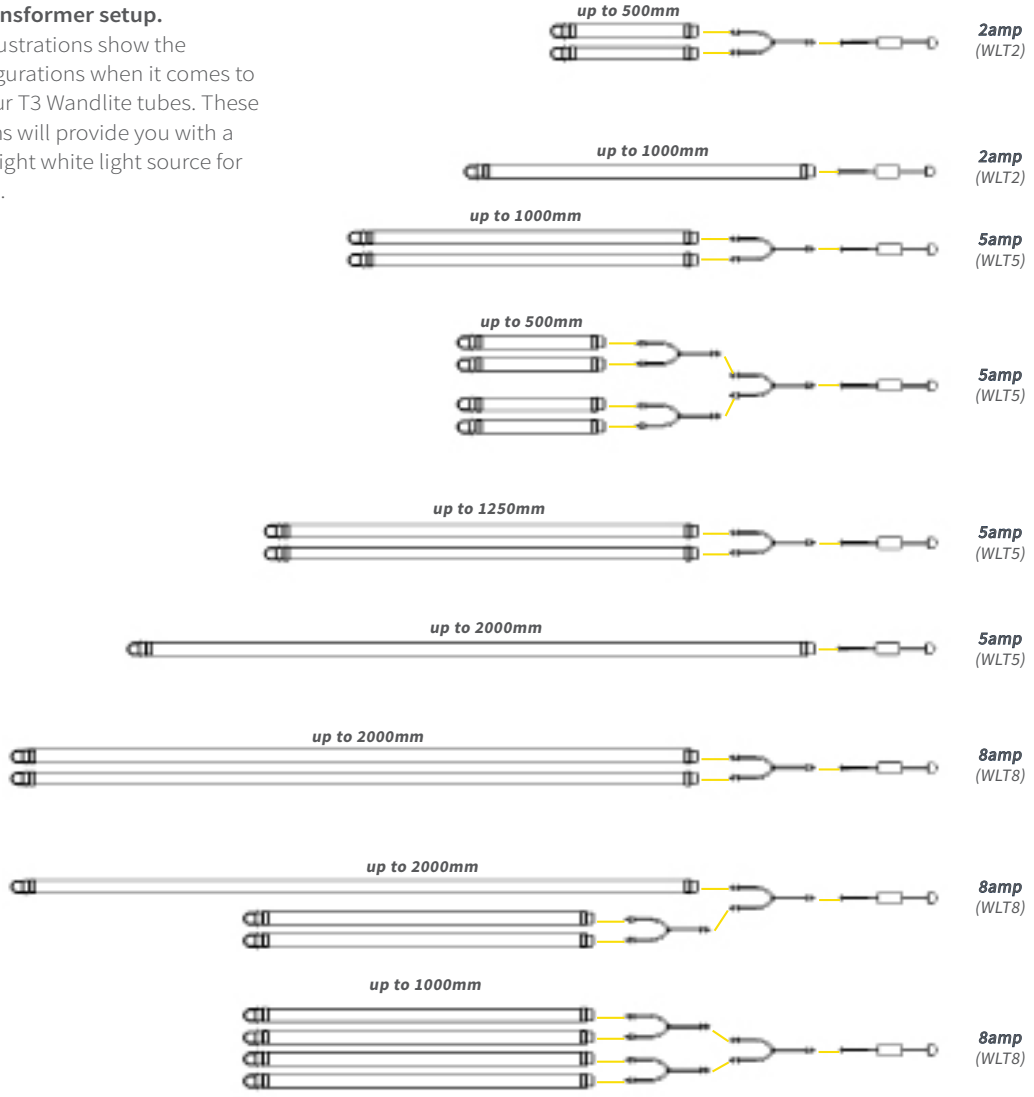

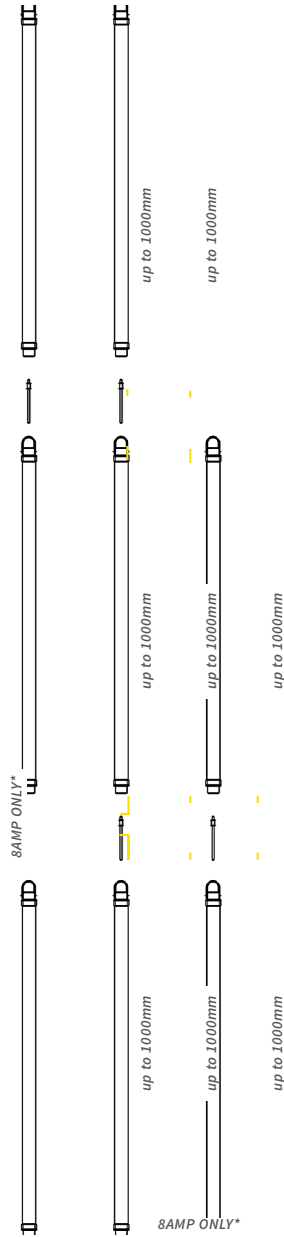

INFORMATION:

On top of the standard sizes we can supply bespoke lengths of wandlite from 300mm-3000mm

The T3 Wandlite has specific configurations when it comes to correct tube and transformer setup.

The below illustrations show the correct configurations when it comes to powering your T3 Wandlite tubes. These configurations will provide you with a consistent bright white light source for your displays.
